BIBLICAL LENS OF ACADEMICS

Engaging in Art from a Christian Lens

Art acts as a medium for crafting and understanding visual reflections of God's creation. It begins with the understanding that God made us in His own image, granting us the ability to appreciate and respond to the physical beauty of the world. He also instilled in each of us a desire to create.

Young individuals possess an abundance of creative energy, and at ELC, we have the unique responsibility to encourage our students and refine their skills. We aim to share God's Truth, as revealed through creation, through the various medium of visual arts.

At ELC, we want our students to engage in beautiful work that enhances the world and reflects God's heart for diversity, complexity, and creativity.. We want them to recognize the thrilling calling that God has for the Christian artist.
